

Press Release

July 1, 2013

Japan Analytical Instruments Manufacturers' Association (JAIMA)
Japan of Scientific Instruments Association (JSIA)

JASIS 2013 (Sep. 4th – 6th, Makuhari Messe) (Chiba, Japan) Registration Starts.

Japan Analytical Instrument Manufacturers' Association (1-12-3 Kanda Nishiki-cho, Chiyoda-Ku, Tokyo, 101-0054; Tel: 03-3292-0642; President: Shigehiko Hattori, chairman of Shimadzu Corporation) and Japan Scientific Instruments Association (3-8-5, Nihonbashi-Honcho, Chuo-Ku, Tokyo, 103-0023; Tel: 03-3661-513; President: Hideto Yazawa, CEO of DALTON Co., Ltd.) are pleased to announce the general outline of JASIS 2013 to be held on Sep. 4th to 6th at Makuhari Messe (Chiba) in Japan. JASIS 2013's registration for visitors starts on the 1st of July on the website.

JASIS 2013 is one of the largest Analytical and Scientific instruments show in Asia with the "most advanced" technology and information in Japan. JASIS is a premier world exhibition devoted to the efficient dissemination and gathering of not only product information about the latest analytical and measuring instruments, but also information covering leading edge academic and technological developments. Targeting the growth and globalization of JASIS as Asia's hub exhibition, we hope to execute JASIS to the satisfaction of all exhibitors and visitors.

JASIS 2013 will be held under the theme of "Discover the Future" which is same with last year. 30,000 visitors are expected to come to JASIS 2013. We have already received 428 applications to exhibit with the size of 1339 exhibition booths in total (cf. 438 exhibitors/1363 booths (2012)) and record-high 340 topics applied to the New Technology Seminar which is presented by exhibitors (cf. 337 topics (2012)).

Many conferences and symposiums are organized by featuring distinguished speakers from abroad to attract more visitors from Asia, an area of growth in demand for analytical and scientific instruments, thereby generating expanded business opportunities to exhibitors. The representative topics are shown below. Some of the sessions will be held with simultaneous translation.

TOPICS

<Medical Innovation Zone; Special Programs examining the advanced diagnostics market emerging from the analytical instruments >

At JASIS 2013, we are entering into the field of advanced diagnostics market emerging from the analytical instruments market for the first time. As the centerpiece for this year, the special area, the "Medical Innovation Zone" will be set in the venue. There will be keynote presentations held by invited speakers, the participating company's presentations (poster corner), and the business partnering corner for B2B's.

<JASIS Conferences with International Conference Sessions >

In JASIS Conference, there are total 42 sessions organized by academic and research institutes including 7 international sessions conducted by the invited speakers from US, UK, China, Korea,

Singapore, Hong Kong, Taiwan and other countries. Titles of International conference are shown below:

1) U.S. Symposium 2013:

"Mass Spectroscopy Application on Biology/ Industrial/ Diagnostic"

2) International Technical Forum 2013:

"Special Programs examining advanced diagnostics business emerging from analytical instruments"

3) RSC Tokyo International Conference 2013:

"Analytical Biochemistry & Biophysics" with the Plenary Lecture and Poster Session.

4) Korea Symposium 2013:

"Microfabrication and microfluidics: Efficient Tools for Advanced Diagnostics"

5) China Forum 2013:

"Measurement of metabolic disorders such as inborn error of metabolism by using mass spectrometry and its application to advanced diagnostics in China"

6) Korea Forum 2013:

"The State-of-the-Art Technologies on Social Safety & Security from Korea"

Details will be available from the web site of JASIS 2013.

<Science Seminar>

"Cells that can rejuvenesce; Mitochondria solves a wonder of human body"

Prof. Shigeo Ota, Nippon Medical School

<Japanese Pharmacopeia Seminar>

The distinguished presenters will provide the lectures of the latest developments in the 17th revision of the Japanese pharmacopeia.

<The 2nd Heritage Certification Program of Analytical and Scientific Instruments>

JAIMA and JSIA have decided to establish the heritage certification program for analytical and scientific instruments. The 2nd certification ceremony is scheduled on the first day (Sep. 4) of JASIS 2013. Certified items will be exhibited in the exhibition Hall.

There are many other events scheduled in JASIS 2013.

In details, please visit <http://www.jasis.jp/2013/en/>.

We're looking forward to seeing you at JASIS 2013.
